SUMMARY

Dedicated and detail-oriented Programmer Trainee Analyst at Cognizant, with hands-on experience in Salesforce development. Proficient in Java and SQL, with a strong foundation in software development, database management, and Object-Oriented Programming (OOP). Skilled in Data Structures & Algorithms (DSA), enabling efficient problem-solving and optimized solutions. Adept at delivering high-quality results in fast-paced environments, seeking to leverage technical expertise and analytical skills in a challenging role to drive innovation and efficiency.

EDUCATION

BE, Computer Science & Engineering

Visvesvaraya Technological University
Atria Institute of Technology, Bangalore

June'25

8.3 CGPA

INTERNSHIP

Cognizant

Apr'25 - Present

- Interning at Cognizant, gaining hands-on experience in Salesforce with a focus on data security, data modeling, and workflow automation through flows. Assisting in customizing workflows, managing data, and supporting user requirements to enhance customer relationship management and streamline business operations while ensuring data integrity and compliance.
- Developed a Hospital Management System utilizing Salesforce Admin functionalities, with plans to enhance it further using Apex, SOQL, SOSL, and DML for advanced capabilities.

ACADEMIC PROJECTS

Fake Media Detection

- Developed an AI-powered Fake Media Detection system to identify AI-generated, deepfake, and manipulated images/videos using CNN-based deep learning models.
- Designed and trained a CNN-based model to detect manipulated visuals with high accuracy, improving performance from 90% to 93% through hyperparameter tuning and optimization.
- Implemented data preprocessing and augmentation techniques to enhance the model's generalization and robustness.

Sorting Visualizer

- Developed an interactive web-based visualizer to demonstrate sorting algorithms such as Bubble Sort, Selection Sort, Insertion Sort, Merge Sort, and Quick Sort.
- Implemented real-time animations to show step-by-step comparisons and swaps using dynamic DOM manipulation.

TECHNICAL SKILLS

- **Programming Languages:** Java, SQL, Salesforce
- **Databases:** MYSQL
- **Version Control:** Git, GitHub
- **Tools & Utilities:** VS code, GitHub
- **Soft Skills:** Agile & Scrum, Communication, Time Management, Adaptability, Interpersonal Skills, Leadership, Teamwork & Collaboration, Continuous Learning.
- **Hobby :** Cricket & Table Tennis.
